## PROFILE SUMMARY

Computer Engineering fresher skilled in Java, Spring Boot, and Flutter with hands-on full-stack development experience, passionate about building scalable solutions and solving real-world problems through clean code, and seeking an internship to contribute and grow as a software engineer.

## WORK EXPERIENCE

**Open Source Contributor** Jan 2026 – Mar 2026  
Elite Coders Remote

- Analyzed **real-world open-source project structures** and contributed to **codebase improvements**.
- Identified, worked on, and successfully resolved **1–2 reported issues** in active repositories.
- Gained hands-on experience with **Git version control**, including branching, commits, and pull requests.
- Collaborated with maintainers and contributors, improving understanding of **code reviews and collaborative workflows**.

**Mobile Application Developer Intern, MDHostel** May 2025 – Jul 2025  
Crown Software Remote

- Designed **UI pages** for Assets, Bills, and other modules, improving overall **usability**.
- Integrated **backend APIs** using **BLoC architecture** to ensure efficient data flow and state management.
- Fixed **85+ bugs**, reducing reported issues by **40%** and significantly improving app **stability**.

## EDUCATION

**Bachelor of Technology in Computer Engineering (3rd Year)** Jul 2024 – Present  
Charotar University of Science and Technology **8.42 CGPA (up to Semester V)**

**Diploma in Computer Engineering** 2021 – 2024  
Government Polytechnic Porbandar **9.56 CGPA**

## PROJECTS

**Spoural Registration System** Dec 2024 – Present  
*PHP, MySQL, HTML, CSS* —  Live

- Built a **live event management system** supporting **5k+ registrations** and certificate downloads.
- Reduced **manual effort by 5 hours/week** and improved **data accuracy by 30%**.
- Handled **end-to-end development** and testing.

**BugNest – Intelligent Bug Tracking System** Jan 2026 – Present  
*Java, Spring Boot, React, Spring AI, PostgreSQL* —  GitHub

- Developed a **full-stack bug tracker** with **Spring Boot, React, and RBAC** for structured team collaboration.
- Integrated **Spring AI** to automate **bug prioritization** enhancing project management workflow.
- Built a dynamic **Kanban board** with secure **JWT authentication** and **PostgreSQL** for reliable data handling.

**Auction System – Artsea** Oct 2025  
*Java, Spring Boot, JavaScript, HTML, CSS, WebSockets* —  GitHub

- Developed an auction management system supporting **10+ concurrent bids**.
- Implemented secure authentication and real-time bidding with **sub-second updates**.
- Built backend REST APIs with Spring Boot, improving **data integrity** and **response time**.

## TECHNICAL SKILLS

**Programming Languages:** Java, PHP, SQL, HTML, CSS  
**Frameworks:** Spring Boot, Spring AI, Spring Security (JWT), Hibernate, Flutter  
**Databases:** MySQL, PostgreSQL  
**Tools & Platforms:** Git, GitHub, Postman, VS Code, IntelliJ IDEA, Maven

## EXTRACURRICULAR ACTIVITIES

- Led a team during the **GDG CHARUSAT Open Source Contribution Event (1 week)** and collaborated on open-source project contributions.
- Led a team in the **Virtual Elite Hack Hackathon** and advanced to **Round 2**, demonstrating leadership and problem-solving skills.
- Participated in the **Logic Carnival at Charusat Cognizance'26** and advanced to **Round 2**, demonstrating strong logical reasoning and teamwork.
- Participated in the **OdooXGCET 24-hour hackathon**, gaining hands-on experience in rapid development and team collaboration.
- Competed in **multiple online hackathons and coding contests**, strengthening **algorithmic thinking** and **full-stack development** skills under real-world constraints.

## CERTIFICATIONS

- Flutter App Development Certification [Coursera, 2025]
- Spring Framework [Coursera, 2025]
- Software Testing [Coursera, 2025]
- NPTEL - Theory of Computation [2025]
